

MASHUD AHMED

Full Stack Developer | Frontend Engineer | React.js, Next.js, TypeScript | Generative AI (LangChain, Groq)
Bengaluru, India | mashud.dev@gmail.com | +91 9678062213 | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack / Frontend Developer with **3+ years** of experience building scalable, high-performance web applications using **React.js**, **Next.js**, **TypeScript**, and **Node.js**. Proven track record of improving Lighthouse scores, reducing bundle sizes, and developing reusable component systems that accelerate team delivery. Skilled in **REST API** integration, **Redux Toolkit** (RTK Query), performance optimization, and role-based dashboards. Experienced in **Generative AI** and **LLM** application development using LangChain and Groq API, including prompt engineering, chains, and Retrieval-Augmented Generation (RAG). Proven ability to deliver end-to-end features in Agile, cross-functional teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3

Frontend: React.js, Next.js (App Router), React Native, Vue.js, Redux Toolkit (RTK Query), Tailwind CSS, Material UI (MUI), Bootstrap, Framer Motion, shadcn/ui, Responsive Design

Generative AI & LLMs: Generative AI, Large Language Models (LLMs), LangChain, Groq API, Open-Source LLMs, Prompt Engineering, Retrieval-Augmented Generation (RAG), AI Chatbots

Backend: Node.js, Express.js, RESTful APIs, Next.js API Routes, Microservices Integration

Databases: MongoDB, MySQL, SQLite, Firebase (Firestore)

DevOps & Tools: Git, GitHub, Docker, CI/CD Pipelines, Vercel, AWS, GCP

Testing: Jest, React Testing Library, Debugging

APIs & Security: REST APIs, JWT Authentication, OAuth, Role-Based Access Control (RBAC), Razorpay, Stripe, Socket.IO, WebSockets, Third-Party API Integration

Performance & SEO: Code Splitting, Lazy Loading, Memoization, Server-Side Rendering (SSR), Core Web Vitals, Lighthouse Optimization, SEO

Practices: Agile, Scrum, SOLID Principles, Component-Driven Architecture, TypeScript Type Safety, Accessibility (a11y)

WORK EXPERIENCE

Software Developer

Aug 2025 - Present

iTCart Pvt Ltd | Bangalore, India

- Architected scalable **React.js** and **TypeScript** applications with a modular, feature-based architecture, improving maintainability across **10+ product modules**.
- Led frontend development of **Workforce360**, a role-based Learning Management System (LMS) serving **Admin, Instructor, and Learner** workflows on a unified platform.
- Built end-to-end LMS modules: **Course Management, Learning Paths, User Management, Analytics Dashboards, Reports, and Role-Based Access Control (RBAC)**, integrated with **REST APIs**.
- Designed and maintained **40+ reusable UI components** and shared utilities, reducing duplicate code by an estimated **25%** and accelerating feature delivery.
- Integrated REST APIs with **RTK Query** (authentication, caching, optimistic updates, centralized error handling), reducing redundant API requests by an estimated **30%**.
- Optimized performance with **React Hooks, memoization, lazy loading, and rendering optimization**, cutting initial load time by approximately **20%**.
- Delivered responsive, accessible interfaces with **Tailwind CSS** across **desktop, tablet, and mobile**.
- Refactored legacy JavaScript modules to **TypeScript**, improving type safety, reliability, and code quality.

Tech Stack: React.js, TypeScript, Redux Toolkit, RTK Query, Tailwind CSS, REST APIs

Full Stack Developer

Jun 2024 - Jun 2025

Technet Middle East Trading FZ LLC | Dubai, UAE (Remote)

- Developed and maintained the company marketing website with **Next.js** and **TypeScript**, raising the **Lighthouse Performance score to 90+** and reducing page load time by approximately **25%**.
- Built **40+ reusable UI components** in a scalable, component-driven architecture, cutting development time for new pages by an estimated **30%**.
- Developed secure **server-side API routes** in Next.js for contact forms, customer inquiries, and email workflows with input validation and error handling.
- Improved Core Web Vitals through **image optimization, code splitting, lazy loading, SEO optimization, and Server-Side Rendering (SSR)**.

Tech Stack: Next.js, TypeScript, React.js, Tailwind CSS, REST APIs, Node.js, Git, Vercel, SEO, SSR

Full Stack Developer

Feb 2024 - May 2024

Clouwood Studio Pvt Ltd | Noida, India

- Developed cross-platform mobile applications using **React Native** for **Android and iOS**.
- Implemented **Firebase Authentication** with secure session management and user onboarding workflows.
- Built **RESTful APIs** using **Express.js** and **MongoDB** for secure, scalable backend services.
- Designed data persistence with **SQLite** (offline storage) and **Firebase Firestore** (cloud sync) for seamless offline-to-online data synchronization.
- Optimized rendering and state management, improving responsiveness on low-end devices.
- Managed release processes for the **Google Play Store** and **Apple App Store**, including versioning, builds, testing, and guideline compliance.

Tech Stack: React Native, JavaScript, Firebase Authentication, Firestore, SQLite, Express.js, MongoDB, REST APIs, Git

PROJECTS

AiXRelief - Disaster Relief Management System

Tech Stack: React 19, TypeScript, Vite, Tailwind CSS v4, Redux Toolkit (RTK Query), Google Maps API

- Engineered a multi-portal disaster relief platform with strict **role-based access control (RBAC)** isolating Admin and Volunteer workflows.
- Architected a type-safe data layer with **RTK Query** for API communication across multiple microservices (Identity and Relief).
- Designed a secure **JWT authentication** flow using js-cookie with a proactive token refresh mechanism for uninterrupted sessions.
- Integrated the **Google Maps API** (autocomplete, interactive markers) for precise location tracking and rapid relief requests.
- Implemented **multi-language** support (English/Assamese) through a centralized translation configuration.

Personal Portfolio Website

Tech Stack: Next.js (App Router), TypeScript, Tailwind CSS, Framer Motion, shadcn/ui

- Built a production-ready portfolio with **Next.js App Router**, a feature-based architecture, and reusable components; deployed on **Vercel**.
- Applied **SOLID principles**, custom hooks, and TypeScript interfaces; added **Framer Motion** animations and scroll-spy navigation.
- Optimized with **code splitting, lazy loading, image optimization, and SEO best practices**, achieving **90+ Lighthouse scores**.

Flexora - Physiotherapy Clinic Website

Tech Stack: Next.js 15 (App Router), TypeScript, Tailwind CSS v4, Framer Motion

- Developed a production-ready healthcare website with **11 responsive routes** using **Next.js 15 (App Router)**.
- Centralized content in typed configuration files, separating business content from UI logic for easier maintenance.
- Optimized **SEO, accessibility, and performance**, achieving **90+ Lighthouse scores**.

EDUCATION

Bachelor of Technology, Information Technology

Graduated 2023

North-Eastern Hill University (NEHU), Shillong, Meghalaya | CGPA: 8.64

CERTIFICATIONS & TRAINING

- **Generative AI with LangChain and Groq API** - Self-paced course (In Progress, 2026)
- **MERN Stack** - Jspiders Training & Development Center, Bangalore
- **Python with Machine Learning** (e-Learning) - Tool Room and Training Centre, Guwahati
