

MASHUD AHMED

Software Developer | Full Stack Developer | Frontend Engineer

Bangaluru, India | mashud.devx@gmail.com | +91 9678062213 | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Developer with **3+ years** of experience architecting scalable, high-performance web applications using React.js, Next.js, and TypeScript. Track record of improving Lighthouse scores, trimming bundle sizes, and shipping reusable component systems that raise team-wide development velocity. Skilled in REST API integration, state management (Redux Toolkit/RTK Query), and performance optimization for production-grade products. Comfortable owning features end-to-end in Agile, cross-functional product teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js (App Router), React Native, Vue.js, Redux Toolkit (RTK Query), HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI (MUI), Framer Motion, Responsive Design

Backend: Node.js, Express.js

Databases: MongoDB, MySQL, SQLite, Firebase (Firestore)

DevOps: Docker, CI/CD Pipelines, Git, GitHub, Vercel, AWS, GCP

Testing: Jest, React Testing Library, Manual Testing & Debugging

APIs & Authentication: REST APIs, JWT Authentication, OAuth, Razorpay, Stripe, Third-Party API Integration, Socket.IO Client, WebSockets

Performance & Optimization: Code Splitting, Lazy Loading, Memoization, Bundle Optimization, Rendering Optimization, Core Web Vitals, Lighthouse Optimization, SEO

Methodologies: Agile, Scrum

WORK EXPERIENCE

Software Developer

Aug 2025 – Present

iTCart Pvt Ltd | Bangalore, India

- Architected and developed scalable **React.js** and **TypeScript** applications using a modular, feature-based architecture, improving code maintainability and reducing development effort across **10+ product modules**.
- Led frontend development of **Workforce360**, a role-based Learning Management System (LMS) supporting **Admin, Instructor, and Learner** workflows, serving **multiple organizational roles** through a unified platform.
- Designed and maintained **40+ reusable UI components** and shared utilities, reducing duplicate code by an estimated **25%** and accelerating feature delivery.
- Built end-to-end LMS modules including **Course Management, Learning Paths, User Management, Analytics Dashboards, Reports, and Role-Based Access Control**, integrating **REST APIs**.
- Integrated REST APIs using **RTK Query** with authentication, request caching, optimistic updates, loading states, and centralized error handling, reducing redundant API requests by an estimated **30%**.
- Optimized application performance using **React Hooks, memoization, lazy loading, and rendering optimization**, improving page responsiveness and reducing initial load time by approximately **20%**.
- Delivered fully responsive and accessible interfaces using **Tailwind CSS**, ensuring consistent user experience across **desktop, tablet, and mobile** devices.
- Refactored legacy JavaScript modules to **TypeScript**, improving type safety, reducing runtime issues, and increasing overall code reliability and maintainability.

Tech Stack: React.js, TypeScript, Redux Toolkit, RTK Query, Tailwind CSS, REST APIs

Full Stack Developer

Jun 2024 – Jun 2025

Technet Middle East Trading FZ LLC | Dubai, UAE (Remote)

- Developed and maintained the company's marketing website using **Next.js** and **TypeScript**, improving **Lighthouse Performance score to 90+** and reducing page load time by approximately **25%** through performance optimization.
- Built **40+ reusable UI components** and implemented a scalable, component-driven architecture, reducing development time for new pages by an estimated **30%** while ensuring design consistency.
- Developed secure **server-side API routes** in Next.js to handle contact forms, customer inquiries, and email workflows with input validation and robust error handling.
- Improved application performance through **image optimization, code splitting, lazy loading, SEO optimization, and Server-Side Rendering (SSR)**, reducing the initial JavaScript bundle size and improving Core Web Vitals.

Tech Stack: Next.js, TypeScript, React.js, Tailwind CSS, REST APIs, Node.js, Git, Vercel, SEO, Server-Side Rendering (SSR)

Full Stack Developer

Feb 2024 – May 2024

Clouwood Studio Pvt Ltd | Noida, India

- Developed cross-platform mobile applications using **React Native**, delivering responsive and consistent user experiences across **Android and iOS** platforms.
- Implemented **Firebase Authentication** with secure session management and user onboarding workflows, improving authentication reliability and user experience.
- Built and integrated **RESTful APIs** using **Express.js** and **MongoDB**, enabling secure and scalable backend services for core application features.
- Designed data persistence using **SQLite** for offline storage and **Firebase Firestore** for cloud synchronization, ensuring seamless offline-to-online data sync.
- Optimized application performance through efficient state management, rendering optimization, and component reusability, improving rendering performance and responsiveness on low-end devices.
- Managed end-to-end release processes for the **Google Play Store** and **Apple App Store**, including versioning, build generation, testing, and compliance with platform guidelines.

Tech Stack: React Native, JavaScript, Firebase Authentication, Firebase Firestore, SQLite, Express.js, MongoDB, REST APIs, Git

PROJECTS

AiXRelief - Disaster Relief Management System

Tech Stack: React 19, TypeScript, Vite, Tailwind CSS v4, Redux Toolkit (RTK Query), Google Maps API

- Engineered a responsive, multi-portal disaster relief platform using **React** and **TypeScript**, implementing strict role-based access control (**RBAC**) to securely isolate Admin and Volunteer workflows.
- Architected a robust, type-safe data layer using **Redux Toolkit (RTK Query)** to manage state and API communication across disparate microservices (Identity and Relief).
- Designed a secure authentication flow leveraging **js-cookie** for JWT token storage, complete with a proactive token refresh mechanism to ensure uninterrupted user sessions.
- Integrated the **Google Maps API** with auto-complete and interactive markers to facilitate precise location tracking and rapid submission of critical relief requests.
- Developed a modern, accessible user interface utilizing Tailwind CSS v4 with glassmorphism aesthetics, and implemented a robust, centralized translation configuration to support **multi-language** localizations (English/Assamese) for diverse user demographics.

Personal Portfolio Website

Tech Stack: Next.js (App Router), TypeScript, Tailwind CSS, Framer Motion, shadcn/ui

- Built a production-ready portfolio using **Next.js App Router** with a scalable, feature-based architecture and reusable components.
- Applied **SOLID principles**, custom hooks, and TypeScript interfaces to improve maintainability and code reusability.
- Implemented **Framer Motion** animations, smooth scrolling, and scroll-spy navigation to enhance user experience and engagement.
- Optimized performance using **code splitting, lazy loading, image optimization, and SEO best practices**, achieving **90+ Lighthouse scores**.
- Deployed the application on **Vercel** with responsive design and cross-browser compatibility.

Flexora - Physiotherapy Clinic Website

Tech Stack: Next.js 15 (App Router), TypeScript, Tailwind CSS v4, Framer Motion

- Developed a production-ready healthcare website using **Next.js 15 (App Router)** with **11 responsive routes**, delivering a fast and consistent user experience across devices.
- Centralized application content using typed configuration files, separating business content from UI logic to improve maintainability, scalability, and future content updates.
- Optimized **SEO, accessibility, and performance** using modern **Next.js** best practices, responsive design, image optimization, and code splitting, achieving **90+ Lighthouse scores**.

EDUCATION

Bachelor of Technology, Information Technology

North-Eastern Hill University (NEHU), Shillong, Meghalaya | CGPA: 8.64 | Graduated 2023

CERTIFICATIONS & TRAINING

- MERN Stack – Jspiders Training & Development Center, Bangalore
- e-Learning on Python with Machine Learning - Tool Room and Training Centre, Guwahati

ADDITIONAL INFORMATION

Languages: English, Hindi, Assamese

Availability: Immediately available for Full-Stack / Frontend Engineer roles

Nationality: Indian
